

NEW

WASHING CONTAINER **CEMBOX**

Cleaning of
mixer trucks on
SITE

**Specially designed for the reception and settling of wash water from
mixer trucks**

The use of CEMBOX washing containers allows the on-site cleaning of unloading chutes
and tank mixer trucks

Solid waste is eliminated under
guaranteed traceability conditions

Decanted water is reused in the
manufacture of new concrete or
discharged into the natural
environment after treatment

- Simple to use and adapted to site conditions
- Allows the cleaning of chutes before leaving the site
- Transportable by standard truck equipped with a lifting arm
- Emptying in an inert waste treatment and storage center
